## DETAILED ACTION

### ***Supplemental Election/Restrictions***

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1,4,8-12,28 and 30-36, drawn to a product.

Group II, claim(s) 1-15 and 25-27, drawn to a product.

The inventions listed as Groups I-II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Each independent claim (i.e. 1 and 13) has a different special technical feature not required by the other. The examiner will list the non-corresponding specific technical features of each Group below:

Group I has concave portion in a linear pattern, and plateau-forming top surfaces on the convex portions having fine concave and convex portions as well as the pitch of embossments on one side being different than the pitch of the embossments on the other side.

Group II has concave portions with trough-like geometry and segmented walls being formed in said troughs.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

2. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one

Art Unit: 1772

or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
